RULING ON ENTITLEMENT¹

On January 12, 2021, Tracy Jefferies filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that that she suffered a left-sided shoulder injury related to vaccine administration (“SIRVA”) as a result of a tetanus-diphtheria-acellular pertussis (“Tdap”) vaccine that was administered on August 1, 2019. Petition at 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On January 23, 2023, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at

1. Specifically, Respondent agrees that “[P]etitioner has satisfied the criteria set forth in the Vaccine Injury Table (“Table”) and the Qualifications and Aids to Interpretation (“QAI”) for SIRVA, and there is no more likely than not alternative cause.” *Id.* at 5. Respondent further agrees that “[P]etitioner timely filed her case, that she received the Tdap vaccination in the United States, and that she satisfied the statutory severity requirement by suffering the residual effects or complications or her injury for more than six months after vaccine administration.” *Id.*

In view of Respondent’s position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
